EF Standard English Test (EF SET)

ABOUT ME

Web developer, with 3 years of experience in programming languages, tools and frameworks, mainly performing the role of Semi-senior programmer.

My IT background includes Front-end development on web platforms.

All this making use of agile methodologies when addressing projects, particularly with Scrum methodology.

Within my skills I highlight pro-activity, self-taught, and desire to learn new things within the field of IT and web development

PROFESSIONAL EXPERIENCE

Front-End Developer (Soho)

6/2022 – Current

- *Redesign of the graphic interface on web platforms, proposed by the user (Gasco, Zurich, Banco Itau).*
